

# ACCESS AUTOMATION SYSTEM

*Leaders in gate automation products*

*• Convenient • Improves Security • Saves Time • Unbeatable Value • Reliable • Peace of Mind*

## LE'TRON®

### UNDER GROUND SWING GATE

### SLIDING GATE

### Quality

The DC24 Volts electric motor is special designed dedicated to the toughest application environments. Ball bearings are used instead of commonly used bush bearing to ensure everlasting trouble free operation. Long life carbon brush eliminates frequent service to the motor as happened in other similar products.

For the swing type system, semi-opening for pedestrian is possible.

### Actuator motor for underground swing type automatic gate system

Model L5000 (standard model)      Model L5500 HD (heavy duty model)

### Waterproof

Being housed inside a waterproof chassis, the mechanism are protected against floods and corrosion.
